Overall Length:

5.000 inches

Overall Height:

2.000 inches

Overall Width:

3.700 inches

Product Name:

Open circuit protector

Functional Description:

Used for open circuit protection for relay classes c100 through c200

General Description:

Jone element, relay class protection c100 through c200; frequency 50 to 400 hz; ambient temp rance -30 degrees c to +55 degrees c; normal secondary current 5 amps ac; short time overcurrent 100 amps for 2 seconds; maximum continuous current 10 amps through one element or 7.5 amps through all three independent element; copper terminals with brass slotted pan head screws no. 8-32 x 1/4 with cupped washers; weight 1.2 lbs; standard burden 2 ohms; clamping peak voltage limit 400 v

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
