Body Style:

Tube type

Terminal Material:

Brass

Terminal Surface Treatment:

Nickel plated

Overall Length:

0.788 inches

Overall Diameter:

0.197 inches

Case Material:

Glass

Continuous Current Rating In Amps:

0.160

Maximum Voltage Rating In Volts:

250.0 ac

Circuit Over-current Interruption Type:

Time delay

Interruption Indicator Method:

Visible element

Features Provided:

Nonrenewable fusible element

Circuit Over-current Interruption Delay Time In Seconds:

120.0 210 pct of current rating

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01700
