Body Material:

Ceramic and metal

Terminal Quantity:

3

Terminal Type:

Wire lead

Mounting Method:

Wire lead

Usage Design:

Indoor and outdoor

Mounting Configuration:

Wire lead on each end and one in the middle

Arrester Type:

Gas

Breakdown Voltage:

Between 210.000 volts and 250.000 volts

Special Features:

Manufacturers item name: bms 230v tripolar gas tube

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T214-c
