## NSN 5920-01-485-6785

Overvoltage Absorber - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5920-01-485-6785

Current Type:
Dc
Covering Material:
Ceramic
Overall Diameter:
14.00 millimeters
End Application:
Interconnecti
Usage Design:
Overvoltage and transient voltage protection
Protective Covering Type:
Coating
Element Material:
Zinc
Product Name:
Vdr metal oxide varistors standard
Voltage In Volts:
18.0 and 895.0
Special Features:
continuous voltage: 200 (dc), voltage at 1 ma: 240
Supplementary Features:
Storage temperature: -40 to 125c, operating temperature: -40 to 85c
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T214-a
