Case Material:

Fiberglass

Continuous Current Rating In Amps:

50.000

Maximum Voltage Rating In Volts:

600.0 dc

Circuit Over-current Interruption Type:

Time delay

End Application:

Panel, control 870-132750

Features Provided:

Nonrenewable fusible element

Circuit Over-current Interruption Delay Time In Seconds:

10.0 135 pct of current rating

Special Features:

Visual open fuse indicator. Tri-onic time delay. A/c and d/c rated

Supplementary Features:

Catalog number trs50r

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01700
