Body Style:

Axial terminal type

Overall Length:

Between 7.818 inches and 7.942 inches

Overall Diameter:

Between 1.090 inches and 1.130 inches

Continuous Current Rating In Amps:

100.000

Maximum Voltage Rating In Volts:

600.0 ac

Circuit Over-current Interruption Type:

Time delay

Interruption Indicator Method:

Opaque body

End Application:

Panel, maint bypass sw1-0387

Features Provided:

Nonrenewable fusible element

Short-circuit/interrupt Current Rating In Amps:

300000.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01700
