Body Material:

Steel

Overall Length:

2.818 inches

Overall Width:

2.795 inches

End Application:

Nexrad weather system; rda

Usage Design:

Outdoor

Special Features:

Must protect equip from strong electrical surges; oper volt 15.0v; interface tnc female type connectors; freq range 800mhz to 2500mhz; rated current, peak pulse current 20, 000 amp

Supplementary Features:

Req name: protector, electrical surge, coaxial

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T214-c
