Body Style:

Hole type

Overall Length:

5.750 inches

Center To Center Distance Between Mounting Facilities Parallel To Length:

4.380 inches

Mounting Slot Width:

0.430 inches

Overall Diameter:

1.630 inches

Terminal Width:

1.130 inches

Terminal Thickness:

0.190 inches

Maximum Voltage Rating In Volts:

600.0 ac

Special Features:

End item: panel power (508-09343) , item has dual element , time delay- 10 seconds at 500% rated current. Ampere rating is 70 to 600a, interrupting taring 300, 000a rms sym.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01700
