Body Material:

Brass

Overall Length:

2.400 inches

Overall Diameter:

0.880 inches

Mounting Method:

Holes

End Application:

Nsn 1430-010-448-9835, communication relay group, guided missile system, truck mounted; w/s: missile, patriot

Usage Design:

Indoor and outdoor

Arrester Type:

Gas

Breakdown Voltage:

48.000 volts

Special Features:

Arrester, electrical surge-suppressor, emp/lightning; nickel plated finish; operating ambient temperature -45.6 c to 71 c; throughput energy: 50w rms, 10mhz to 3 ghz and dc 48 volts at 6 amps

Precious Material And Location:

Center contact gold

Precious Material:

Gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T214-c
