**Continuous Current Rating In Amps:**

30.000

**Maximum Voltage Rating In Volts:**

32.0 dc

**Interruption Indicator Method:**

Visible element

**Special Features:**

See through cover for easy detection of blown fuses; thermoplastic material; light green in color

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A01700
