Terminal Surface Treatment:

Copper alloy

Overall Length:

62.7 millimeters

Terminal Length:

27.78 millimeters

Overall Diameter:

2.8 millimeters

Continuous Current Rating In Amps:

15.000

Terminal Diameter:

0.64 millimeters

Product Name:

Axial lead, cartridge and socket fuse

Special Features:

Encapsulated, epoxy-coated body; wire leads, pure tin coated copper wire leads; operating temperature m55.0 to p125.0 degrees c;
flammability rating ul 94vo

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A01700
