**Overall Length:**

3.080 inches

**Overall Height:**

1.360 inches

**Overall Width:**

3.000 inches

**Current Type:**

Dc

**Mounting Method:**

Holes

**End Application:**

Relay panel dsl eng and dsl gen

**Mounting Configuration:**

1 hole at each end of side opposite side with terminal screws

**Polarization Feature:**

Not included

**Current Rating In Amps:**

1.0

**Shunt Capacitor:**

Not included

**Element Material:**

Any acceptable

**Voltage In Volts:**

275.0

**Special Features:**

Limits max. Surge voltage across the operating coil to 1000 volts; two suppressors may be used in parallel with max. Capacity of 1700 volts; for mill duty contactors nema 1-4, max. Peak voltage is 500 volts for one suppressor and 850 for two

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T214-a
