Overall Length:

3.080 inches

Overall Height:

1.360 inches

Overall Width:

3.000 inches

Current Type:

Dc

Mounting Method:

Holes

End Application:

Relay panel dsl eng and dsl gen

Mounting Configuration:

1 hole at each end of side opposite side with terminal screws

Polarization Feature:

Not included

Current Rating In Amps:

1.0

Shunt Capacitor:

Not included

Element Material:

Any acceptable

Voltage In Volts:

275.0

Special Features:

Limits max. Surge voltage across the operating coil to 1000 volts; two suppressors may be used in parallel with max. Capacity of 1700 volts; for mill duty contactors nema 1-4, max. Peak voltage is 500 volts for one suppressor and 850 for two

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T214-a
