Body Material:

Plastic, polyester

Fuse Accommodation Quantity:

1

Product Name:

Global modular fuseholder

Special Features:

Designed to accommodate a multitude of fuses from around the world (chm 10x38 and midget); max voltage and current is ul/csa 600vac/dc 30a (3 watt), iec 690 vac, 32a; having 1 pole; wire range of 1-16mm squared (18-8 awg); torque 2.5nm (22 lb-in); multiple pole configurations (up to four); finger sage protection; self-extinguishable ul 94-vo rated polyester material; multiple-phase connections available for ganging poles

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A014a0
