Body Style:

Knife blade type

Maximum Voltage Rating In Volts:

250.0 ac

Circuit Over-current Interruption Type:

Time delay

Special Features:

One slotted knife-blade terminal; current-limiting; high in-rush current motor protection; low watt loss; power consumption; electrically isolated end caps; 70-600 amps; non-indicating; low peak, dual element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01700
