Body Material:

Steel

Overall Depth:

160.0 millimeters

Overall Height:

560.0 millimeters

Overall Width:

370.0 millimeters

Mounting Method:

Bracket

Usage Design:

Indoor

Arrester Type:

Oxide film

Unpackaged Unit Weight:

14.0 kilograms

Product Name:

Surge filter, 3 phase, 63a, 160ka/phase primary

Special Features:

Ports: 2; mounting: fixed, bracket provided; input voltage-uc: 380-440vac; max continuous voltage: 285vac l-n; temporary overvoltage: 300vac l-n, 15 mins; service type: tt, tn, tn c-s or any 3-phase system with a grounded neutral. This unit must not be connected to an ungrounded system.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T214-c
