Body Material:

Brass

Terminal Quantity:

2

Terminal Type:

Connector, pressure

End Application:

Nsn: 5865-01-585-3857, ground station, tactical intelligence

Usage Design:

Indoor and outdoor

Arrester Type:

Any acceptable

Product Name:

Emp protector

Special Features:

Main path connectors: port 1 unprotected, tnc jack female-port 2 protected, tnc jack female; port 1&2 center contact material: copper beryllium alloy, surface: gold plating (w/o nickel underplating); housing surface: sucoplate (r) plating; 75 ohms, 0-2000 mhz; operating temp range: -40 to +85 degrees c.

Precious Material And Location:

Plating contacts gold

Precious Material:

Gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T214-c
