Terminal Material:

Copper

Overall Length:

40.3 millimeters

Terminal Length:

7.3 millimeters

Overall Width:

28.5 millimeters

Continuous Current Rating In Amps:

3.75

Maximum Voltage Rating In Volts:

90.0 dc

Circuit Over-current Interruption Type:

Time delay

End Application:

Console assembly

Circuit Over-current Interruption Delay Time In Seconds:

24.0 500 pct of current rating

Product Name:

Radial leaded ptc fuse

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01700
