Body Style:

Plug-in autofuse

Terminal Length:

13.0 millimeters

Overall Height:

34.2 millimeters

Overall Width:

29.2 millimeters

Continuous Current Rating In Amps:

50.0

Unable To Decode:

28.7 millimeters

Terminal Thickness:

0.84 millimeters

Maximum Voltage Rating In Volts:

32.0 dc

Circuit Over-current Interruption Type:

Time delay

Features Provided:

Rohs directive compliance

Special Features:

Contacts - blades; color - red; breaking capaci type 1000a; standard sae-j1888

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A01700
