Body Material:

Silicon

Overall Length:

75.0 millimeters

Overall Height:

80.0 millimeters

Overall Width:

25.0 millimeters

Usage Design:

Indoor

Breakdown Voltage:

30.0 volts

Product Name:

Din rail surge suppressor

Special Features:

16 vdc maximum continuous operating voltage; 30 v peak at 1200 amps; 25 v peak at 134 amp; 5 nonosecond response time; -40 to 80 c operating temp; continuous bi-polar protection; fits standard 35mm type din rail

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T214-c
