Pole Quantity:

3

Mounting Facility Type And Quantity:

6 unthreaded hole

Maximum Continuous Load Current Rating Per Pole:

250.0 amperes ac all locations and 250.0 amperes dc all locations

Operating Voltage Type And Rating Per Pole In Volts:

500.0 ac all locations and 250.0 dc all locations

Circuit Protection Type:

Overcurrent all locations

Trip Release Method:

Thermal all locations

Trip Release Characteristic:

Instantaneous all locations

Trip Release Ambient Temperature Rating:

50.0 degrees celsius all locations

Frequency In Hertz:

400.0 all locations

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A030a0
