Case Material	
Plastic	
Pole Quantity	
1	
Mounting Fac	ility Type And Quantity:
2 threaded hole	9
Thready Qty F	er Inch (tpi):
32	
Maximum Cor	tinuous Load Current Rating Per Pole:
90.0 amperes a	ac single location and 90.0 amperes dc single location
Operating Vol	tage Type And Rating Per Pole In Volts:
120.0 ac single	location and 30.0 dc single location
Maximum Inte	rrupting Capacity Current Type And Rating Per Pole In Amps:
900.0 ac single	location and 900.0 dc single location
Circuit Protec	tion Type:
Overcurrent sir	ngle location
Trip Release M	flethod:
Thermal single	location
Trip Release (Characteristic:
Time delay sing	gle location
Ultimate Trip	Rating Of Continuous Current Rating Per Pole In Percent:
125.0 single lo	cation
Reset Method	
Manual	
Main Contact	Tripping Mechanism Type:
Trip free	
Manual Actua	tor Type And Quantity:
1 push button	
Actuator Fund	tion:
Trip-reset	
•	tion Designation:
At pole one	
Thread Size:	
0.190 inches	
	ne In Seconds Per Rated Continuous Current:
	pct single location and 50.000 at 200 pct single location and 0.600 at 400 pct single location and 5.000
location	
	Ambient Tempurature Rating:
-	elsius single location
Thread Series	-
Unef	
	And Quantity:
2 screw	, , and waaning.
2 301000
