Circuit Breaker Tripper - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5925-00-248-1069 **Body Style:** Rectangular dimensional envelope **Overall Length:** 5.500 inches **Overall Height:** 3.000 inches **Overall Width: 4.375** inches Pole Quantity: **Mounting Facility Type And Quantity:** 2 terminal **Maximum Continuous Load Current Rating Per Pole:** 15.0 amperes ac all locations **Operating Voltage Type And Rating Per Pole In Volts:** 500.0 ac all locations **Circuit Protection Type:** Overcurrent all locations **Trip Release Method:** Magnetic all locations **Trip Release Characteristic:** Instantaneous all locations **Ultimate Trip Rating Of Continuous Current Rating Per Pole In Percent:** 1400.0 all locations **Internal Trip Release Configuration:** Series trip all locations Frequency In Hertz: 60.0 all locations **Terminal Type And Quantity:** 4 compression Shelf Life: N/a **Unit Of Measure: Demilitarization:**

No
