**Pole Quantity:**

2

**Mounting Facility Type And Quantity:**

6 unthreaded hole

**Maximum Continuous Load Current Rating Per Pole:**

250.0 amperes ac all locations and 250.0 amperes dc all locations

**Operating Voltage Type And Rating Per Pole In Volts:**

500.0 ac all locations and 250.0 dc all locations

**Circuit Protection Type:**

Overcurrent all locations

**Trip Release Method:**

Thermal all locations

**Trip Release Characteristic:**

Time delay all locations

**Ultimate Trip Rating Of Continuous Current Rating Per Pole In Percent:**

150.0 all locations

**Ultimate Trip Time Per Pole In Seconds:**

3600.000 all locations

**Internal Trip Release Configuration:**

Series trip all locations

**Trip Release Ambient Temperature Rating:**

50.0 degrees celsius all locations

**Frequency In Hertz:**

60.0 all locations

**Terminal Type And Quantity:**

2 quick disconnect, male

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A030a0
