Body Style:

Rectangular dimensional envelope

Overall Length:

4.688 inches

Overall Height:

1.625 inches

Overall Width:

2.578 inches

End Application:

M60 tank, cev m728

Pole Quantity:

3

Mounting Facility Type And Quantity:

2 unthreaded hole

Maximum Continuous Load Current Rating Per Pole:

300.0 amperes dc all locations

Operating Voltage Type And Rating Per Pole In Volts:

10.0 dc all locations

Circuit Protection Type:

Overcurrent all locations

Trip Release Method:

Thermal all locations

Trip Release Characteristic:

Time delay all locations

Ultimate Trip Rating Of Continuous Current Rating Per Pole In Percent:

115.0 all locations

Reset Method:

Automatic

Trip Delay Time In Seconds Per Rated Continuous Current:

20.000 at 200 pct all locations and 200.000 at 200 pct all locations and 0.100 at 1000 pct all locations and 3.000 at 1000 pct all locations

Terminal Type And Quantity:

3 screw

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A030a0
