**Body Style:**

Rectangular dimensional envelope

**Overall Length:**

4.688 inches

**Overall Height:**

1.625 inches

**Overall Width:**

2.578 inches

**End Application:**

M60 tank, cev m728

**Pole Quantity:**

3

**Mounting Facility Type And Quantity:**

2 unthreaded hole

**Maximum Continuous Load Current Rating Per Pole:**

300.0 amperes dc all locations

**Operating Voltage Type And Rating Per Pole In Volts:**

10.0 dc all locations

**Circuit Protection Type:**

Overcurrent all locations

**Trip Release Method:**

Thermal all locations

**Trip Release Characteristic:**

Time delay all locations

**Ultimate Trip Rating Of Continuous Current Rating Per Pole In Percent:**

115.0 all locations

**Reset Method:**

Automatic

**Trip Delay Time In Seconds Per Rated Continuous Current:**

20.000 at 200 pct all locations and 200.000 at 200 pct all locations and 0.100 at 1000 pct all locations and 3.000 at 1000 pct all locations

**Terminal Type And Quantity:**

3 screw

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A030a0
