**Body Length:**

2.170 inches

**Body Width:**

2.000 inches

**Case Material:**

Plastic

**Boss Height:**

0.125 inches

**Mounting Surface To Terminal End Distance:**

1.770 inches

**Pole Quantity:**

3

**Mounting Facility Type And Quantity:**

2 clip

**Maximum Continuous Load Current Rating Per Pole:**

2.5 amperes ac all locations

**Operating Voltage Type And Rating Per Pole In Volts:**

250.0 ac all locations

**Maximum Interrupting Capacity Current Type And Rating Per Pole In Amps:**

1000.0 ac all locations

**Circuit Protection Type:**

Overcurrent all locations

**Trip Release Method:**

Magnetic all locations

**Trip Release Characteristic:**

Time delay all locations

**Ultimate Trip Rating Of Continuous Current Rating Per Pole In Percent:**

150.0 all locations

**Ultimate Trip Time Per Pole In Seconds:**

0.100 all locations

**Reset Method:**

Automatic

**Internal Trip Release Configuration:**

Series trip all locations

**Trip Delay Time In Seconds Per Rated Continuous Current:**

0.100 at 150 pct all locations

**Frequency In Hertz:**

400.0 all locations

**Terminal Type And Quantity:**

2 quick disconnect, male

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A030a0
