**Body Style:**

Multipole-single actuator type

**Body Length:**

22.000 inches

**Body Width:**

9.000 inches

**Body Height:**

7.310 inches

**Pole Quantity:**

3

**Operating Voltage Type And Rating Per Pole In Volts:**

500.0 ac all locations

**Circuit Protection Type:**

Overcurrent all locations

**Trip Release Method:**

Magnetic all locations

**Trip Release Characteristic:**

Instantaneous all locations and time delay all locations

**Reset Method:**

Manual

**Frequency In Hertz:**

60.0 all locations

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A030a0
