End Application:

Aircraft model a-6e

Mounting Method:

Threaded hole

Special Features:

Rated current of circuit breaker 5 amps at 115v 400 hz; with circuit breaker closed resistance of any one of three phase power lines from input to output is 180 milliohms max.; components include filter box machining assembly 1, cover 1, wedge 1, block 1, circuit breaker 1, filter 4, connector 2, strap anchor strap 2, tie down strap 2, lug terminal 2

Style Designator:

Rectangular, surface mounting

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A17600
