**End Application:**

Ships service switchboard p/n d213082-mi onboard 175 ft wlm coast guard vessels

**Pole Quantity:**

3

**Operating Voltage Type And Rating Per Pole In Volts:**

600.0 ac all locations

**Circuit Protection Type:**

Undervoltage all locations

**Auxiliary Trip Coil Voltage Type And Rating In Volts:**

120.0 ac all locations

**Trip Release Characteristic:**

Instantaneous all locations

**Special Features:**

Frame amp 800; trip sensor 600 amp; 3 normally opened & 3 normally closed isolated auxiliaries; long time, short time & instantaneous tripping function

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A030a0
