| End Application: |
|---|
| Ships service switchboard p/n d213082-mi onboard 175 ft wlm coast guard vessels |
| Pole Quantity: |
| 3 |
| Operating Voltage Type And Rating Per Pole In Volts: |
| 600.0 ac all locations |
| Circuit Protection Type: |
| Undervoltage all locations |
| Auxiliary Trip Coil Voltage Type And Rating In Volts: |
| 120.0 ac all locations |
| Trip Release Characteristic: |
| Instantaneous all locations |
| Special Features: |
| Frame amp 800; trip sensor 600 amp; 3 normally opened & 3 normally closed isolated auxiliaries; long time, short time & instantaneous |
| tripping function |
| Shelf Life: |
| N/a |
| Unit Of Measure: |
| - - |
| Demilitarization: |
| No |
| |
