End Application:

Ships service switchboard p/n d213082-mi onboard 175 ft wlm coast guard vessels

Pole Quantity:

3

Operating Voltage Type And Rating Per Pole In Volts:

600.0 ac all locations

Circuit Protection Type:

Undervoltage all locations

Auxiliary Trip Coil Voltage Type And Rating In Volts:

120.0 ac all locations

Trip Release Characteristic:

Instantaneous all locations

Special Features:

Frame amp 800; trip sensor 600 amp; 3 normally opened & 3 normally closed isolated auxiliaries; long time, short time & instantaneous tripping function

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A030a0
