Circuit Breaker - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5925-01-476-1640

C	Motorial
Case	Material:

Metal

**End Application:** 

Ship class ae33

# Pole Quantity:

2

### Mounting Facility Type And Quantity:

3 threaded hole

#### Maximum Continuous Load Current Rating Per Pole:

240.0 amperes ac all locations

## **Operating Voltage Type And Rating Per Pole In Volts:**

240.0 ac all locations

#### **Circuit Protection Type:**

Overcurrent all locations

#### **Trip Release Method:**

Magnetic all locations

# Trip Release Characteristic:

Instantaneous all locations

# Reset Method:

Manual

# Terminal Type And Quantity:

2 quick disconnect, male

Shelf Life:

N/a

#### Unit Of Measure:

---

#### Demilitarization:

No

### Fiig:

A030a0
