**Case Material:**

Plastic

**End Application:**

Ship classae33

**Pole Quantity:**

3

**Mounting Facility Type And Quantity:**

3 threaded hole

**Maximum Continuous Load Current Rating Per Pole:**

277.0 amperes ac all locations and 125.0 amperes ac all locations

**Operating Voltage Type And Rating Per Pole In Volts:**

277.0 ac all locations and 125.0 dc all locations

**Maximum Interrupting Capacity Current Type And Rating Per Pole In Amps:**

200.0 ac all locations

**Circuit Protection Type:**

Overcurrent all locations

**Trip Release Method:**

Magnetic all locations

**Trip Release Characteristic:**

Instantaneous all locations

**Reset Method:**

Manual

**Terminal Type And Quantity:**

3 quick disconnect, male

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A030a0
