Case Material:

Plastic

End Application:

Ship classae33

Pole Quantity:

3

Mounting Facility Type And Quantity:

3 threaded hole

Maximum Continuous Load Current Rating Per Pole:

277.0 amperes ac all locations and 125.0 amperes ac all locations

Operating Voltage Type And Rating Per Pole In Volts:

277.0 ac all locations and 125.0 dc all locations

Maximum Interrupting Capacity Current Type And Rating Per Pole In Amps:

200.0 ac all locations

Circuit Protection Type:

Overcurrent all locations

Trip Release Method:

Magnetic all locations

Trip Release Characteristic:

Instantaneous all locations

Reset Method:

Manual

Terminal Type And Quantity:

3 quick disconnect, male

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A030a0
