Body Style:

Multipole-single actuator type

Body Length:

3.750 inches

Body Width:

2.360 inches

End Application:

6115-01-431-3063

Pole Quantity:

3

Mounting Facility Type And Quantity:

2 unthreaded hole

Maximum Continuous Load Current Rating Per Pole:

50.0 amperes dc third location

Operating Voltage Type And Rating Per Pole In Volts:

63.0 ac third location

Circuit Protection Type:

Overcurrent third location

Trip Release Method:

Magnetic third location

Trip Release Characteristic:

Time delay third location

Ultimate Trip Rating Of Continuous Current Rating Per Pole In Percent:

125.0 third location

Reset Method:

Automatic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A030a0
