Body Style:

Rectangular dimensional envelope

Overall Length:

1.724 inches

Overall Height:

1.890 inches

Overall Width:

0.980 inches

End Application:

18 inch astab mon

Pole Quantity:

2

Mounting Facility Type And Quantity:

2 clamp

Maximum Continuous Load Current Rating Per Pole:

5.0 amperes ac all locations and 5.0 amperes dc all locations

Operating Voltage Type And Rating Per Pole In Volts:

250.0 ac all locations and 50.0 dc all locations

Maximum Interrupting Capacity Current Type And Rating Per Pole In Amps:

1500.0 ac all locations and 1000.0 dc all locations

Circuit Protection Type:

Overcurrent all locations

Trip Release Method:

Thermal all locations

Trip Release Characteristic:

Time delay all locations

Ultimate Trip Rating Of Continuous Current Rating Per Pole In Percent:

135.0 all locations

Reset Method:

Manual

Frequency In Hertz:

400.0 all locations

Terminal Type And Quantity:

4 quick disconnect, female

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A030a0
