**Body Style:**

Rectangular dimensional envelope

**Overall Length:**

1.724 inches

**Overall Height:**

1.890 inches

**Overall Width:**

0.980 inches

**End Application:**

18 inch astab mon

**Pole Quantity:**

2

**Mounting Facility Type And Quantity:**

2 clamp

**Maximum Continuous Load Current Rating Per Pole:**

5.0 amperes ac all locations and 5.0 amperes dc all locations

**Operating Voltage Type And Rating Per Pole In Volts:**

250.0 ac all locations and 50.0 dc all locations

**Maximum Interrupting Capacity Current Type And Rating Per Pole In Amps:**

1500.0 ac all locations and 1000.0 dc all locations

**Circuit Protection Type:**

Overcurrent all locations

**Trip Release Method:**

Thermal all locations

**Trip Release Characteristic:**

Time delay all locations

**Ultimate Trip Rating Of Continuous Current Rating Per Pole In Percent:**

135.0 all locations

**Reset Method:**

Manual

**Frequency In Hertz:**

400.0 all locations

**Terminal Type And Quantity:**

4 quick disconnect, female

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A030a0
