Body Style:

Multipole-single actuator type

Body Length:

18.938 inches

Body Width:

10.250 inches

Mounting Surface To Terminal End Distance:

13.813 inches

Pole Quantity:

3

Special Features:

Operation: electric (120 vac) or manual; overload devices: two electromechanical overloads; interrupting rating: 50ka rms sym; short time withstand rating: 25ka for one half second

Frequency In Hertz:

60.0 all locations

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A030a0
