End Application:

Hpu motor controller 16243200

Product Name:

Remote reset blocks

Special Features:

Composition is 100/127 v with 50/60 hz. 1 block for remote resetting, average consumption: 9va resetting cycle duration 9s, 6 consecutive operations max. Minimum impulse time: 0.5s

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
