End Application:

Controller, duplex, pump ecd-plc-cvn77-03

Maximum Continuous Load Current Rating Per Pole:

10.0 amperes ac all locations

Operating Voltage Type And Rating Per Pole In Volts:

120.0 ac all locations

Circuit Protection Type:

Overvoltage all locations

Special Features:

Single phase; din rail mounted; protects power going to the controller power supply

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A030a0
