Overall Height:

3.25 inches

Overall Width:

2.35 inches

Body Diameter:

2.16 inches

End Application:

5895-01-549-4234

Maximum Continuous Load Current Rating Per Pole:

20.0 amperes ac all locations

Operating Voltage Type And Rating Per Pole In Volts:

120.0 ac all locations

Product Name:

Gfci (ground fault circuit interrupter) panel mount

Special Features:

L and n: 12awg; frequency: 50/60hz; trip level: 4-6ma; insulation voltage: 1500vrms; operating temperature: -35deg c to 66deg c

Color:

Black

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A556h0
