Pole Quantity:

1

Mounting Facility Type And Quantity:

2 threaded hole

Storage Type:

Any acceptable

Maximum Continuous Load Current Rating Per Pole:

15.0 amperes dc first location

Operating Voltage Type And Rating Per Pole In Volts:

80.0 dc all locations

Actuator Function:

Trip-reset

Switch Current Rating And Type In Amps:

24.0 dc

Terminal Type And Quantity:

2 screw

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A030a0
