**Body Style:**

Multipole-single actuator type

**Body Width:**

19.05 millimeters

**Body Height:**

63.50 millimeters

**Pole Quantity:**

2

**Inclosure Protection Type For Which Designed:**

General purpose

**Product Name:**

Circuit breaker

**Special Features:**

Frequency 50/60 hz; inrush code 8x; mounting 6-32; terminals 10-32 threads 70a; ul 1077; max rating 100 z; max voltage 250 v; trip free feature helps prevent the circuit breaker from being held in the on position during overload; self-cleaning contacts; mid-trip alarm switch

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A030a0
