Body Style:

Multipole-single actuator type

Case Material:

Ceramic

Pole Quantity:

4

Mounting Facility Type And Quantity:

3 terminal

Maximum Continuous Load Current Rating Per Pole:

150.0 amperes ac fourth location

Operating Voltage Type And Rating Per Pole In Volts:

250.0 ac fourth location

Circuit Protection Type:

Error voltage fourth location

Trip Release Method:

Thermal fourth location

Trip Release Characteristic:

Time delay fourth location

Reset Method:

Automatic

Frequency In Hertz:

50.0 fourth location

Terminal Type And Quantity:

3 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A030a0
