Overall Length:

2.930 inches

Overall Width:

1.550 inches

End Application:

Boat, utility

Usage Design:

Designed to interrupt short circuits or overloads

Overload Rating In Amps:

35.0

Integral Heating Element:

Included

Product Name:

Thermal circuit breaker

Special Features:

Manual, sealed unit; calibration: 200% rated current, 77°F (25°C); ultimate trip at 77°F (25°C): must hold 100%, must trip at 135%

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T214-c
