Overall Length:

2.516 inches

Overall Height:

0.812 inches

Overall Width:

1.828 inches

Body Length:

1.562 inches

Body Width:

1.828 inches

Body Height:

0.594 inches

Distance Between Mounting Facility Centers:

2.000 inches

Temperature Sensing Element Type:

Disc

Mounting Method:

Bracket

Contact Action Stimulus:

Increase

Mounting Facility Pattern:

Two position in-line

Nonpile-up Contact Arrangement:

2 pole, single throw, normally closed, momentary action

Terminal Type:

Tab w/screw

Contact Load Current Rating:

50.0 amperes resistive load single voltage

Contact Adjustability:

Deactuation point not adjustable, manual reset and actuation point not adjustable

Contact Stimulus Rating:

204.00 actuation point degrees fahrenheit and 216.00 actuation point degrees fahrenheit

Contact Voltage Rating In Volts:

480.0 ac at sea level single voltage

Media For Which Designed:

Gas

Style Designator:

Rectangular w/bracket

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A048b0
