Hazardous Locations/environmental Protection:

Oil resistant

Individual Section Quantity:

1

Switch Contact Basic Design:

Nonpile-up nonsymmetrical

Mounting Method:

Threaded bushing w/panel seal single mounting facility

Features Provided:

Actuator knob

Contact Voltage Rating In Volts:

600.0 highest ac voltage rating at sea level

Switch Actuator Indexing Position Quantity:

3 single actuator

Terminal Type:

Tab w/screw

Switch Actuator Positioning Increment:

60.0 degrees single actuator

Switch Actuator Stop Device Type:

Fixed stop single actuator

Contact Load Current Rating:

6.0 amperes resistive load lowest ac voltage rating at sea level

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A052b0
