Hazardous Locations/environmental Protection:
Oil resistant
Individual Section Quantity:
1
Switch Contact Basic Design:
Nonpile-up nonsymmetrical
Mounting Method:
Threaded bushing w/panel seal single mounting facility
Features Provided:
Actuator knob
Contact Voltage Rating In Volts:
600.0 highest ac voltage rating at sea level
Switch Actuator Indexing Position Quantity:
3 single actuator
Terminal Type:
Tab w/screw
Switch Actuator Positioning Increment:
60.0 degrees single actuator
Switch Actuator Stop Device Type:
Fixed stop single actuator
Contact Load Current Rating:
6.0 amperes resistive load lowest ac voltage rating at sea level
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A052b0
