Capillary Tube Length:

36.000 inches

Bulb Length:

12.000 inches

Bulb Diameter:

0.250 inches

Temperature Sensing Element Type:

Capillary tube-bulb

Contact Action Stimulus:

Increase

Nonpile-up Contact Arrangement:

1 pole, single throw, normally closed, momentary action

Terminal Type:

Tab w/screw

Contact Load Current Rating:

25.0 amperes resistive load single voltage

Contact Adjustability:

Deactuation point adjustable and actuation point adjustable

Contact Adjustment Range:

+100.00/+300.00 actuation point degrees fahrenheit

Contact Adjustment Type:

External actuation point knob with scale

Contact Voltage Rating In Volts:

250.0 ac at sea level single voltage

Media For Which Designed:

Gas

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A048b0
